

WAYS TO HELP

Make a premie quilt for the St. Joseph Neonatal Intensive Care Unit!

Experiment with scraps, or frame an orphaned quilt block. Even if it's not perfect, the babies don't care!

- * Size: 16 inches x 20 inches is ideal.
- * Please use 100% cotton fabric, thread, and batting. (Polyester is too scratchy for tender premie skin.)
- * Wash without fabric softener.
- * Put into individual plastic bags.
- * Bring to The Quilting Season.
